Subject: GKM Document Needs - Q13 and OSWER Q2

Nitin,

See below input to questions we received yesterday evening. Some of this may be redundant to what has already been provided.

Q 13. Timeline of activities as they occur on-site – Nitin/Reggie

August 27 posting contains site file memo partial chronology, Weston Tech memo, and email describing on-site chronology

<http://www2.epa.gov/goldkingmine/gold-king-mine-chronology>

OSWER Q2 - Following is the language provided for Mathy's testimony on total annual ER numbers:

From FY 2009 to FY 2014, the EPA completed or oversaw an average of 367 removal actions per year across the country.

Note: OEM does not have a number for number of mine cleanups per year.

Let us know if more is needed.

Eugene
